

VAX 2 STOP CANCER

About Us:

- Founded in January 2020 by survivors, advocates, and public health experts.
- Our mission is to prevent cancer by increasing Alabama HPV vaccination rates through education of health care providers and the public.
- Endorsed by the Alabama Chapter of the American Academy of Pediatrics, the Alabama Comprehensive Cancer Control Coalition, and the Alabama Adolescent Vaccine Task Force.

VAX 2 STOP CANCER IS GRATEFUL FOR GENEROUS SUPPORT FROM:

**Blue Cross Blue Shield of Alabama
Altec/Styslinger Foundation
Robert Meyer Foundation
Hugh Kaul Foundation
Susan Mott Webb Charitable Trust
IPC Foundation**

Together, we can prevent cancer.

- Alabama is #1 for cervical cancer deaths and #9 for oropharyngeal cancer deaths.
- The HPV vaccine is an FDA-approved, safe, and effective vaccine that prevents against SIX types of cancer.
- Alabama's HPV vaccination rate is less than 30%.
- We CAN change the trajectory for the next generation to be free from HPV-associated cancers!
